

Linking Models and Experiments, Volume 2

Proceedings of the 29th IMAC, A Conference on Structural Dynamics, 2011

Editor: Tom Proulx, The Society for Experimental Mechanics,
Bethel, USA

Linking Models and Experiments, Volume 2. Proceedings of the 29th IMAC, A Conference and Exposition on Structural Dynamics, 2011, the second volume of six from the Conference, brings together 33 contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Structural Dynamics, including papers on Finite Element Techniques, Model Updating, Experimental Dynamics Substructuring, Model Validation, and Uncertainty Quantification.
