

Special Topics in Structural Dynamics, Volume 6

**Proceedings of the 33rd IMAC, A Conference and
Exposition on Structural Dynamics, 2015**

Editor: Randall Allemang, The Society for Experimental Mechanics,
Bethel, USA

Special Topics in Structural Dynamics, Volume 6: Proceedings of the 33rd IMAC, A Conference and Exposition on Structural Dynamics, 2015, the sixth volume of ten from the Conference brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Structural Dynamics, including papers on:

- Aircraft/Aerospace
- Active Control
- Analytical Methods
- System Identification
- Sensors and Instrumentation

Special Topics in Structural Dynamics, Volume 6
